

**MACHINE SHOP VILLAGE
ROAD CONSTRUCTION UPDATE
June 29, 2012**

The completion of the Machine Shop Village Elm St. Reconstruction Project will be delayed until summer 2013 due to the extensive gas company work being done in the road. Through the summer of 2012, the gas co. is replacing all the mains and services along the roadway. The trench work will be compacted through the winter 2012 & Spring 2013 to make a better, longer lasting finished paving.
